#### To the Directors of

St. Martha's Regional Hospital Foundation

#### **Qualified Opinion**

We have audited the financial statements of St. Martha's Regional Hospital Foundation ("the Organization"), which comprise the statements of financial position as at March 31, 2019, and the statements of operations, changes in net assets and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, except for the possible effects of the matter described in the Basis for Qualified Opinion section of our report, the accompanying financial statements present fairly in all material respects, the financial position of St. Martha's Regional Hospital Foundation as at March 31, 2019, and its results of operations and its cash flows for the year then ended in accordance with Canadian accounting standards for not-for-profit organizations.

#### **Basis for Qualified Opinion**

In common with many not-for-profit organizations, the Organization derives revenue from donations, parking and fundraising activities, the completeness of which is not susceptible to satisfactory audit verification. Accordingly, verification of these revenues was limited to the amounts recorded in the records of the Organization. Therefore, we were not able to determine whether any adjustments might be necessary to donations, parking and fundraising revenue, excess of revenues over expenses, and cash flows from operations for the years ended March 31, 2019 and March 31, 2018, current assets as at March 31, 2019 and March 31, 2018, and net assets as at April 1 and March 31 for both the 2019 and 2018 years. Our audit opinion on the financial statements for the year ended March 31, 2018 was modified accordingly because of the possible effects of this limitation in scope.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Organization in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian accounting standards for not-for-profit organizations, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Organization's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Organization or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Organization's financial reporting process.

#### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to
  fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
  evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting
  a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may
  involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
  that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of the Organization's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Organization's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Organization to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the
  disclosures, and whether the financial statements represent the underlying transactions and events in
  a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

#### 1. Nature of operations

St. Martha's Regional Hospital Foundation is a not-for-profit organization, incorporated in 1991 for the purpose of raising funds towards equipment, research and other expenses of St. Martha's Regional Hospital located in Antigonish, Nova Scotia. The Foundation's not-for-profit status makes it exempt for income tax purposes.

#### 2. Summary of significant accounting policies

#### **Basis of presentation**

St. Martha's Regional Hospital Foundation has prepared these financial statements in accordance with Canadian Accounting Standards for Not-for-Profit Organization (ASNPO).

#### Cash and cash equivalents

Cash and cash equivalents are defined as cash on hand and balances with banks and guaranteed investments certificates and temporary investments.

#### Revenue recognition

The Foundation follows the restricted fund method of accounting for contributions.

Restricted contributions are recognized as revenue of the appropriate fund in the year in which the related expenses are incurred. Unrestricted contributions are recognized as revenue of the appropriate fund when received or if the amount to be received can be reasonably estimated and collection is reasonably assured.

Donation revenue is recorded on a cash basis while grants, investment and other revenue are recorded on the accrual basis.

Certain campaign contributions have been pledged to the Foundation but have not been recorded in the records of the Foundation as ultimate collection is not reasonably assured.

#### Investments

Investments are classified as available for sale and stated at fair value. The change in the difference between the fair value and cost of investments at the beginning and end of each year is reflected in the statement of operations.

Fair values of investments are determined as follows:

Fixed income securities and equities are valued at year-end quoted market prices where available. Where quoted prices are not available, estimated fair values are calculated using comparable securities.

Guaranteed investment certificates and temporary investments maturing within a year are stated at cost which together with accrued interest income approximates fair value given the short-term nature of these investments.

March 31, 2019

#### 2. Summary of significant accounting policies (cont'd)

#### Contributed services

A substantial number of volunteers contribute a significant amount of their time each year to the Foundation. Because of the difficulty of determining the fair value, contributed services are not recognized in the financial statements.

#### Use of estimates

Management reviews the carrying amounts of items in the financial statements at each balance sheet date to assess the need for revision or any possibility of impairment. Many items in the preparation of these financial statements require management's best estimate. Management determines these estimates based on assumptions that reflect the most probable set of economic conditions and planned courses of action.

These estimates are reviewed periodically and adjustments are made to the statement of operations as appropriate in the year they become known.

An item subject to management estimate is allowance for doubtful accounts.

#### Fund accounting

The Foundation follows the restricted fund method of accounting for contributions.

The operating fund accounts for the organization's program delivery and administrative activities. This fund also reports the activities for equipment, research and education of St. Martha's Regional Hospital. This fund reports unrestricted resources, designated funds and restricted investments that are in the process of being transferred from/to the investment fund.

The investment fund reports the assets, liabilities, revenues and expenses related to fund raising activities related to bequests and planned giving and specific donations to the investment fund. All assets and liabilities within this fund are restricted.

The parking endowment fund is responsible to hold ninety percent of its net proceeds from the operation of the parking lot in trust for an endowment fund. The remaining ten percent of its net proceeds can be used by the foundation for any of its other charitable purposes. The capital and income of the parking endowment fund shall be used strictly to purchase medical equipment for the hospital.

The campaign fund reports the assets, liabilities, revenues and expenses related to specific donations to the campaign fund. All assets and liabilities within this fund are restricted.

The annual net surplus of the general fund and campaign fund for the current year is to be transferred to the investment fund to become part of the investment fund.

March 31, 2019

#### 2. Summary of significant accounting policies (cont'd)

#### **Financial instruments**

Initial measurement

The Foundation's financial instruments are measured at fair value when issued or acquired. For financial instruments subsequently measured at cost or amortized cost, fair value is adjusted by the amount of the related financing fees and transaction costs. Transaction costs and financing fees relating to the financial instruments that are measured subsequently at fair value are recognized in operations in the year in which they are incurred.

#### Subsequent measurement

At each reporting date, the Foundation measures its financial assets and liabilities at cost or amortized cost (less impairment in the case of financial assets) except for equities quoted in an active market, which are measured at fair value. All changes in fair value of the Foundation's investments in equities quoted in an active market are recorded in the statement of operations. The financial instruments measured at amortized cost are cash and cash equivalents, receivables and payables and accruals.

For financial assets measured at cost or amortized cost, the Foundation regularly assess whether there are any indications of impairment. If there is an indication of impairment, and the Foundation determines that there is a significant adverse change in the expected timing or amount of future cash flows from the financial asset, it recognizes an impairment loss in the statement of operations. Any reversals of previously recognized impairment losses are recognized in operations in the year the reversal occurs.

#### 3. Contribution revenues

Various donors have pledged \$1,171,550 in 2007 for the purpose of funding purchases of specific hospital equipment to St. Martha's Regional Hospital. To date \$1,171,550 has been collected, \$32,000 of which was collected during fiscal 2019.

#### 4. Designated beguests and donations

The Foundation has received specific bequests and donations designated for specific purposes.

	<u>2019</u>	<u>2018</u>
Balance, beginning of year Amounts received Amounts expended for designated purposes	\$ 246,099 92,100 (101,496)	\$ 224,528 108,539 (86,968)
Balance, end of year	\$ 236,703	\$ 246,099

March 31, 2019

5. Investments <u>2019</u> <u>2018</u>

Equities and fixed income (Cost - 2019 - \$7,898,904; 2018 - \$5,986,131)

\$ 8,585,181

\$ 6,410,011

#### 6. Payables and accruals

Included in the payables and accruals for 2019 is \$1,850 (2018 - \$8,938) for government remittances.

#### 7. Financial instruments risks

The Foundation is primarily exposed to interest rate volatility, market and liquidity risk. The Foundation has a set of formal investment policies and procedures to establish an asset mix amount of equity and fixed income investments, the policies require diversification of investments within categories, and include a set limit on the size of exposure to individual investments and counterparties.

#### (a) Interest rate risk

Interest rate risk is the risk that the market value of the Foundation's investments will fluctuate due to changes in market interest rates. The value of the Foundation's assets is affected by short-term changes in nominal interest rates and equity markets. To mitigate this risk, the Foundation invests its portfolio primarily in income producing instruments including cash and equity investments, with modest exposure to capital gain oriented instruments.

#### (b) Market risk

Market risk is the risk that the value of an investment will fluctuate as a result of changes in market prices, whether those changes are caused by factors specific to the individual financial instrument, its issuer or factors affecting all similar financial instruments traded in the market. As all of the Foundation's investments are carried at fair value with fair value changes recognized in the statements of operations, all changes in market conditions will directly result in an increase (decrease) in excess of revenue over expenditures (expenditures over revenues). The Foundation's policy to invest in a portfolio based on criteria established in the Foundation's investment policies mitigates the impact of market risk.

March 31, 2019

#### 7. Financial instruments risks (continued)

#### (c) Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. Liquidity requirements are managed through the receipt of funds through fundraising activities and income generated from investments. The sources of funds are used to pay expenditures. In the normal course of business, the Foundation enters into commitments for future payments which may also impact the Foundation's liquidity.

#### 8. Commitment

#### Campaign

The Foundation had previously committed up to \$600,000 (\$572,325 of which has been used) in support of the creation of six palliative care beds. The remaining \$27,675 will be funded in the future.

#### Parking

During the year, the Foundation committed up to \$77,615 for the purchase of a visual field test machine. Subsequent to year-end the Foundation has committed another \$245,103 to be used from parking in relation to five initiatives including monitors and defibrillators, triage improvement projects, MIS Tower, simulation mannequin and behaviour interventionist.
